## New World Order: Globalists Want To Annihilate 90% Of The Human Race.

Those for mass death have convinced themselves that the only way to save the planet is to eliminate "useless eaters." Globalization has been happening for some time now, but there always appears to be a moment when the agenda's rhetoric is ramped up to disturbing levels, complete with apocalyptic death. Even leftist totalitarian comedians like Bill Maher are pushing the horrific agenda by saying he just wants people to, "Not have kids, DIE, and stay dead." Maher said humans hurt the environment, so the solution is for them to die. There are far too many globalists who believe that the slaughtering of billions of other humans is the answer to "climate change." In the State of Washington, for example, a new "human composting" bill has been passed by the state House and Senate. Once signed into law, it would allow human corpses to be liquefied and flushed into the sewer system. From there, "biosludge" is collected by every city in America, including Seattle, where it is dehydrated and trucked out to the rural farms in surrounding areas. There it's dumped on farm fields after being dishonestly labeled "free fertilizer" for farmers. (freedomoutpost.com 4/28)

## We Must Be Committed to Truth

**Satanic Temple Gets IRS Nod as Official House of Worship.** The Internal Revenue Service has granted the same non-profit status given to churches, synagogues and mosques to The Satanic Temple, an organization in Salem, Massachusetts, that calls itself America's first devil-worshipping church. It is now protected by federal laws governing churches that operate as charities. (newsmax.com 4/27)

**A Canadian Father has Been Told to Bury the Truth and Go Along With the World.** The Supreme Court of British Columbia has found a father guilty of "family violence" because he refuses to refer to his 14-year-old daughter who suffers gender dysphoria and wants to be a boy, as a male. According to a report by *The Federalist*, Justice Francesca Marzari said the father had engaged in "expressions of rejection of [her] gender identity" because of his choice to continue to affirm in public that she is a girl. Dr. Charles McVety, president of Canada Christian College, argues "there's nothing more immutable" than a person's gender. "You cannot change your gender, you can't change your chromosomes, you can't change your genes," he tells One News Now. "But our society has lost its collective mind." The "world we live in," McVety says, "expects parents to adhere to political correctness rather than the truth." (onenewsnow.com 4/23)

The government has long relied on contractors and charities from all faiths to implement its programs. Alarming, however, radical Islamic movements completely control 36% of the Muslim institutions that received government monies, taking 42% of the total funding. A mere 14% of identified government funds given to Muslim organizations were directed toward institutions free of Islamist influence. (jihadwatch.com 5/3)

**Why Are Christian Adoption Agencies Placing Children In LGBT Homes?** Bethany Christian Services in Grand Rapids, Michigan has decided to work with sodomites, lesbians, gender confused and mentally ill people who are at war with their Creator. After the State of Michigan settled a lawsuit with the ACLU, a Communist, subversive organization that continually attacks the biblical foundations of America, and two gay couples who sued the state in 2017, Bethany has chosen to honor their nondiscrimination policy rather than their biblical principals. Michigan Attorney General, Dana Nessel, couldn't wait to parade on Twitter about how a "Christian" adoption agency left the feet of her King Jesus to bow at the feet of the tyrannical beast that promotes what God calls an abomination. **"An Estimated 150-200 Million Pigs" Have Been Hit By A Global Plague Of Biblical Proportions.**

African Swine Fever is the greatest threat to global food production that we have seen since World War II ended. The disease has now spread "to every province in mainland China", and it has now infected "an estimated 150-200 million pigs", that is more pigs than the entire U.S. pork industry produces in an entire year. ASF has spread to Cambodia, Tibet, Romania, South Africa and Vietnam. The losses are staggering, and this crisis continues to get worse. So far it hasn't reached the U.S. There is no vaccine and no cure. (freedomoutpost.com 4/30)

**Lawmaker blasted for 'kill them now or kill them later' comment.**

*On a near-unanimous vote the Alabama House on Tuesday passed a bill that would make it a Class A felony for a physician to perform an abortion at any stage of a woman's pregnancy, unless there's a serious health risk to the mother. Under HB314, an abortionist could face a maximum life-in-prison sentence.*

*Representative John Rogers: "I'm not about to tell a woman what to do with her body. She has the right to make the decision herself. Some kids are unwanted, so we kill them now or kill them later. You bring them in the world unwanted and unloved, you send them to the electric chair. You kill them now or you kill them later.*

*Dr. Alveda King says Rogers' comments are nothing more than eugenics. She points out an obvious fact: if people of any race want to succeed, they must first be born. "If we have a society where children are welcomed into the world, allowed to be born, and given every opportunity equally, regardless of skin color or socio-economic conditions, then they'll come out just fine," she maintains.*
