

The Endtimes Are Now!

Just After the Announcement That the Entrance Gate of Zeus Temple was Discovered, Six Fires Ignited Blocking the Sun.

On July 30, the monumental entrance gate of Zeus' Temple sanctuary was discovered during recent excavations in the ancient city of Aizanoi in western Turkey. The Temple of Zeus dates back about 2,000 years. It is referred to in one article as "The throne of Satan". After the completion of the excavation work, the structure will be restored allowing visitors to walk through the agora and pass through this monumental entrance gate to the temple area, just like in ancient times."

Virtually immediately after the discovery was reported, six forest fires erupted ravaging Turkey leaving six dead and many more wounded. Approximately 960 personnel and more than 20 aircraft joined the efforts in fighting the fires.

Is this coincidence or a display of God's judgment?

Jesus Will Return Right On Time

And let us not be weary in well doing: for in due season we shall reap, if we faint not. (Galatians 6:9)

Manufacturing of Unique Red Dye for Third Temple Begins.

On Sunday, a woman went out to collect tiny insects that once a year produce the flame-colored dye that was used in the Temple. The time-consuming work produced a minuscule amount of dye but she is determined to continue moving forward towards bringing the Third Temple. Bringing

back the Temple service requires attention to the multitude of details described in the Bible. Tola'at shani is usually translated as crimson wool but the actual term refers to the worm which is the source of the dye used for the Temple curtain, as well as the garments of the High Priest. Around the World"

Balance of Power Shifts to Iran as America Pulls Back From Region.

President Biden met with Jordan's King Abdullah on Monday amid concerns that Iran is gaining strategic ground in the Gulf area and in Jordan as the U.S. pulls back from the region. At the same time, the U.S. is closing military bases in Qatar and transferring weapons and supplies to Jordan, according to a report in *Stars and Stripes*, our military publication based in the Pentagon. The report said the closure of three bases comes as the Biden administration presses to withdraw our forces from Afghanistan this year and removes eight Patriot anti-missile batteries from Iraq, Kuwait, Jordan and Saudi Arabia. However, the U.S. will continue using Al Udeid Air Base in Qatar for CENTCOM. "Iran and our Muslim allies in the region see it as another sign that America cannot be trusted," he added. Of all places, why should we move U.S. assets to Jordan? The thought is likely that by doing so, we are strengthening our ally, Jordan. But something else is taking place in Jordan, which could endanger our assets, our troops and American diplomats stationed there, assessed Rhode. "Jordan is extremely unstable and only promises to become more so soon. Therefore, Jordan might not survive," he said. (prophecynewswatch.com 7/24)

China Threatens to Nuke Japan. The Chinese Communist Party aired a video in which it warned Japan of a nuclear response and "full-scale war" if the island nation interferes in China's handling of Taiwan. The video singles out Japan as the one exception to China's policy to not use nuclear weapons against non-nuclear powers. "We will use nuclear bombs first," the video said. "We will use nuclear bombs continuously. We will do this until Japan declares unconditional surrender for the second time." The threats follow comments made by Japan about Taiwan's sovereignty. The Power of Control

Covid Detection Microchips Beneath the Skin - From Science Fiction to Reality.

As the debate over vaccination passports continues, the Pentagon has just added a new level of concern over privacy and government control. It has created a microchip to be inserted under the skin which can detect Covid infections. Retired Colonel Hepburn revealed the device on *60 Minutes* Sunday night. It is put under your skin and signals you will have symptoms tomorrow he explained. It's like a "check engine" light. Sailors would get the signal, then self-administer a blood draw and test themselves on site with information in three to five minutes. You treat and stop the infection in its tracks. Big Tech Censorship Sets the Stage for the Rise of the Antichrist.

As technology continues to advance, every aspect of human life becomes reliant on and intertwined with digital payments and the Internet. If access to those utilities is cut off, an individual's ability to participate in modern day society is also cut off. This sets the stage for the Antichrist to control who can or cannot participate in modern society. This is precisely the type of power big tech firms are consolidating today. Musk's Plan to Connect the World at the Speed of Light.

Starlink will soon be able to support competitive online gaming, thanks to upcoming latency enhancements, according to SpaceX CEO, Elon Musk. The company's goal is to reduce the latencies to under 20ms later this year. SpaceX is working to establish more Starlink ground stations across the globe which are connected to local fiber networks and will beam the internet data to the Starlink satellites in orbit. The other

goal for this year is to double the download speeds to 300Mbps, (endtime.com 7/23)

The War on Children Gets a Covid Update.

The rush to put experimental drugs into babies and masking children as young as two is driven by something – but it doesn't appear to be science. Last October, the District of Columbia passed a law allowing health officials to vaccinate children as young as 11 without their parents' knowledge or permission. Same for San Francisco. You probably didn't hear about this. The media avoid covering topics that might arouse the citizenry to reassert their constitutional and parental rights. How about the CDC's recommendation to mask any child over two years old? Not big news. Children are not emotionally, rationally or socially capable of giving consent, which is why we call them "children." It's why we don't let them get an aspirin without parental approval or to buy alcohol, firearms, to drive, or to vote. (onewsnw.com 8/4)

Heat, Drought, Fires, Floods

At Least 7 Killed in 20-Car Pileup in Utah During Sandstorm.

The pileup occurred during a period of high winds that caused a dust or sandstorm which reduced visibility, the highway patrol said. "We have vehicles all over. Several vehicles tried to swerve off the roadway. We have vehicles that are flipped up on their sides," Rhoden said. (onewsnw.com 7/27)

Massive Fire Raging Outside Jerusalem. A forest fire rages in the Israeli village of "Shoresh" closing the main Jerusalem-Tel Aviv highway 1 and threatening to spread as a result of Israel's dangerous heatwave. This disaster couldn't come at a worse time, as the Sabbathical Year ("Shemita") begins next month, when the Land of Israel must rest and no new trees are allowed to be planted.
