Wars and Rumors of Wars

Matthew 24:6

Dangerous Precedent: France to Create Religious/Political Database.

In France the Interior Ministry has issued three decrees that now allow collection of information about the "political opinions", "philosophical or religious convictions" and "labor- union membership" of individuals followed by the government for representing potential threats to the state. Views expressed on social media will also be collected. Until now, the French law only allowed to gather information about the "activities" of individuals, not opinions or beliefs. Blinken: If it Further Breaks Deal, Iran Could Amass Material for Nuke in Weeks.

U.S. Secretary of State Antony Blinken said Sunday that Iran was currently months away from being able to produce enough material to build a nuclear weapon. And, he said, that timeframe could be reduced to "a matter of weeks" if Tehran further violates restrictions it agreed to under the 2015 nuclear deal with world powers. (timesofisrael.com 2/1)

Famines And Pestilences

Matthew 24:7

India's Bird Flu Epidemic.

In addition to struggling against COVID-19, India is facing two different strains of bird flu (Deutsche Welle, January 14, 2021). The nation has culled thousands of birds and warned citizens that the flu can spread through human-to-human contact, though the highest risk comes from contact with poultry. In reaction to these new virus strains, the prices of chicken, eggs, and other fowl plunged and many shops and stores that sell such foods were closed. Shop owners who defied the closure laws were threatened with having their licenses revoked (NDTV, January 13, 2021), and restaurants were forbidden to serve chicken or eggs. By the end of 2020, bird flu outbreaks had also spread to ten European nations, Japan, and Korea (PoultryWorld.net, December 29, 2020). (twnews&prophecy.com 1/29)

More Locusts for East Africa?

The year 2020 brought a massive locust plague that caused widespread destruction of crops and livelihoods in East African nations (Deutsche Welle, January 5, 2021). The COVID-19 pandemic has only added to the catastrophe, and about 35 million people have been left in a state of "food insecurity." "The U.N. has warned that a second and maybe even deadlier re-invasion of locusts has already begun. Their eggs have been laid and they reproduce at a rate of twentyfold per generation. Officials are preparing to spend millions of dollars to spray hatching locusts before they mature. The wetter the weather, the more severe the infestation will be. (twnews&prophecy.com 1/15)

The New Surveillance State

A Tool for Antichrist!

The coronavirus pandemic has been utilized to implement broader agendas that have been planned well in advance, using new technology such as facial recognition, digital IDs and payment systems, mRNA vaccines and vaccine certificates. This is openly stated in books such as *COVID-19: The Great Reset and The Fourth Industrial Revolution*. What better way to coerce people into using technology that has long been planned to enslave humanity than by holding them hostage to a "deadly" virus causing people to fear for their lives?

On January 14 the Vaccination Credential Initiative (VCI), a broad coalition of health and technology corporations, was announced to standardize digital access to vaccination records. The VCI garners support from the World Economic Forum (i.e., Klaus Schwab and his Great Reset). Common Pass requires a smartphone and works on Apple (through the Apple Health app) and Android (through the Common-Health app) devices. The Global Syndicate does not want the average citizen to have the right to travel freely without being closely monitored for compliance with new societal rules. They want humanity locked into a surveillance grid that can track every movement and eventually, every thought. It is expected to launch in the first half of 2022.

Employers will eventually make it difficult to work without proof of vaccination. Additionally, stores, concert and sports venues, restaurants, museums, and parks may also soon require a tool like Common Pass to shop for necessities and access entertainment and leisure. But it doesn't stop here. Surveillance including the use of facial recognition technology was increasingly used by governments worldwide under the guise of fighting the spread of COVID-19. Last April, Amazon began using thermal cameras to scan workers for fever and other symptoms of coronavirus. Companies such as Thermal Guardian and Flir have been supplying thermal cameras to airports, healthcare centers, businesses, casinos and even grocery stores throughout the pandemic. Around The World

The Civics Trojan Horse: Schools To Become Training Ground for Woke Activism.

In the competition for "wokest school system of all," Illinois just might be the winner. But be warned parents in the other 49 states, it's coming for you too. After a half-decade of moving this under America's noses, they're ready to blowup whatever common-sense learning standards are left and replace them with a formalized level of extremism no one has ever seen.

China Threatens 'Counterstrike'.

China on Monday threatened a "counter strike" against a move by the United States to lift restrictions on official contacts with Taiwan. Beijing says Taiwan is an inviolable part of China to be reclaimed, by force if necessary, and opposes any diplomatic recognition of the democratic island. "Any action that harms China's core interests will receive a resolute counterstrike from China" warned Zhao Lijian, Chinese foreign ministry spokesman. (endtime.com 1/15)

Muslim-Majority Kosovo Forges Ties With Israel; Will Open Embassy in Jerusalem.

Israel and Kosovo formally established diplomatic ties on Monday, with the Muslim-majority territory also recognizing Jerusalem as the Jewish state's capital, putting it at odds with the rest of the Islamic world. In a ceremony held over Zoom in Jeru-

salem and Pristina, Foreign Minister Ashkenazi and his counterpart Stublla signed a joint declaration establishing ties. The U.S. was represented virtually by its State Department representative to the Balkans, Matthew Palmer. Travel restrictions to curb the spread of COVID-19, including the closure of Ben Gurion Airport, made an in-person ceremony impossible. Kosovo has a property in central Jerusalem that is going through the approval process to become an embassy. (timesofisrael.com 2/2)
