

The Endtimes Are Now!

The Lord Will Come...Very Soon!

Why the Stage is Set for the End Times. As a student of Bible end-times prophecy for almost 30 years, no other time has seemed as close to the end times as right now. In the past year, the geopolitical and economic stage has been set for the fulfillment of several end-times prophecies. We now have several potential crises on the horizon, the same ones the Bible says we'll experience either in the Tribulation or the days immediately preceding the Tribulation. The Bible points to a future attack on Israel known as the Gog of Magog War (Ezekiel 38-39). It says a military alliance that includes Russia, Iran, Turkey, and a number of Muslim nations will attack Israel "in the latter days" (Ezekiel 38). Today, we see those nations forming an alliance that has never existed in world history. Russia, Iran, and Turkey all have an active military

presence in Syria, meaning they're right on Israel's northern border at this moment. Ezekiel specifically says this alliance will attack Israel from the north. The ancient territory of Magog covers a number of modern day nations, one of which is Afghanistan. Up until recently, it was difficult to imagine US-occupied Afghanistan joining the Magog invasion. But now? With the Taliban back in control, it would be odd if they didn't join this invading alliance. The way nations are aligned today, the Gog of Magog invasion could take place tomorrow. The convergence of these, and all the other signs spoken of by Jesus and the prophets, for the first time in history tells us that the return of the Lord is close at hand. Whatever we need to do to be prepared for this once-in-a-lifetime event, DO IT NOW. Time is short. (prophecynewswatch.com 10/27)

The World Is Preparing for Its Leader

The New World Order Tax. In a triumph for transnationalism, 136 nations, including the U.S., agreed to mandate a global corporate income tax for all nations that will not be allowed to fall below 15%. The tax proposal is a giant leap forward toward a globalism that America, in times past, has rejected. (endtime.com 10/22)

Who Controls the Climate?

Perfect Winter Storm - Simultaneous Shortage of Oil, Natural Gas, Propane & Coal. We are already in an epic global energy crisis. There have already been significant power outages all over the planet, and prices are spiking at a pace that is absolutely breathtaking. As of yesterday, Fox News was reporting that the price of gasoline had risen "for 22 straight days". The prices are rising rapidly because supplies are starting to get really tight. It is being reported that the crude oil hub in Cushing, Oklahoma could be "effectively out of crude" in just a few weeks. Supplies of oil, natural gas, propane and coal just keep getting tighter. India depends on coal to power 70% of their power plants and they are drastically low on coal. To add to the stress, some weather forecasts are already calling for a colder than normal winter, thanks to the La Nina effect. (pnw.com 10/25)

Extreme Weather Persists as World Leaders Gather at Climate Change Summit. (Do they not know or believe that God controls the weather and the climate on His earth?) Fires raged, rivers flooded, ice melted, droughts baked, storms brewed, tempera-

tures soared, and people died. Climate change in 2021 reshaped life on planet Earth through extreme weather. World leaders are gathering in Scotland to try to accelerate the fight to curb climate change. So far, it's not working as the world keeps getting hotter and its weather more extreme, scientists and government officials say. There have been deadly floods in Belgium, Germany, China, and Tennessee. Fire blazed in parts of the American West, Greece, and even the Arctic. Heatwaves proved deadly and unprecedented, pushing temperatures in the Northwest to 116 degrees Fahrenheit in Portland, Oregon, a city known for its mild climate. Hurricane Ida paralyzed New York City with record-breaking, deadly rain. In just the U.S., there have been 18 weather or climate disasters this year according to the NOAA. Those 18 disasters caused 538 deaths and nearly \$105 billion in damage. In the 1980s, the average year only saw three such disasters. These are end-time events. (timesofisrael.com 10/30)

Immorality Abounds

Putin: Transgender Narrative of the 'Woke' Same as Soviet "Newspeak"; a Crime Against Humanity. Russian President Vladimir Putin spoke at a plenary session of the 18th annual meeting Valdai Discussion Club in Sochi and slammed Western "woke" values, claiming that the pro-LGBT narrative is a "crime against humanity." "The discussion about the rights of men and women has turned into a total phantasmagoria in a number of Western countries," Putin said. "Those who risk saying that men and women still exist, and that this is a biological fact, are virtually ostracized." Putin said that "the overwhelming majority of Russian society" rejected these new ways of thinking. (israel365news.com 10/29)

United States Issues its 1st Passport With 'X' Gender Marker. The State Department did not identify the passport recipient, but Dana Zzyym, an intersex activist from Fort Collins, Colorado, told The AP in a telephone interview that "they" received it. Since 2015, Zzyym, who prefers a gender-neutral pronoun, has been in a legal battle with the State Department to obtain a passport that did not require Zzyym to lie about gender by picking either male or female. Lawlessness in America

A Spirit of Lawlessness Has Spread Across the Country. Our entire nation is now descending into lawlessness. Organized groups such as Antifa, BLM, and QAnon have wreaked havoc in our nation. At least 100 self-proclaimed anarchists tore through Portland, setting dumpsters aflame, smashing windows and causing \$500,000 in damage, but police stood idle because of a new state law that restricts how law enforcement can respond to riots. Apparently Democrats and Republicans were both involved in the drafting of this new law. Portland breaks annual homicide record with more than two months left in 2021. Chicago experienced an old-West-style shootout between two gangs during the day. The good news is that all of the shooters which survived were rounded up and will now be in prison indefinitely, right? Wrong. Kim Foxx, the State's Attorney for Cook County, decided not to charge any of them because they were engaged in "mutual combat". This is how insane things have become. San Francisco's out-of-control

shoplifting has caused five Walgreen stores to close and Safeway stores to drastically shorten their hours. At one Walgreens the loss was \$1,000 in stolen merchandise every day. In June, the company told ABC7 that theft in their San Francisco stores was four times the average of their stores across the country. The stores also spend 35 times more on security guards in the Bay Area city compared with the rest of its locations. Over the summer, shoplifters donning masks carried armfuls of designer handbags as they ran out of a downtown Neiman Marcus store and into getaway cars. Target stores in San Francisco were also forced to trim hours of operation and bolster security in response to "alarming" crime rates over the summer. Other retailers in San Francisco have also reported a rise in security issues, including H&M, Gap and Marshalls. The news has only given fuel to an intensifying recall effort to oust first term San Francisco District Attorney Chesa Boudin from office. (prophecynewswatch.com 10/27, patch.com 11/2)

Are Egypt and Ethiopia Contemplating War? The conflict between Egypt and Ethiopia over the \$5 billion Grand Ethiopia Renaissance Dam (GERD) is heating up after talks broke down. Ethiopia has raised even more concerns as they strengthened ties with Turkey, purchasing military drones. The Security

Council called on Egypt, Ethiopia, and Sudan to resume negotiations under the sponsorship of the African Union (AU). Egypt, located over 2,500 kilometers downstream of the site, opposes the dam which it believes will reduce the amount of water available from the Nile. The Government of Egypt has demanded that Ethiopia cease construction on the dam as a precondition to negotiations, has sought regional support for its position, and some political leaders have discussed methods to sabotage it. Sudan also uses water from the Nile and also suggested a harsh response to Ethiopia as is on the table. (israel365news.com 10/24)

The Jerusalem Consulate - Biden's Betrayal Of Israel. Biden plans to open a consulate in Jerusalem. This may seem like just another diplomatic facility to issue visas, promote trade and take care of US citizens, with

no greater consequence than the US consulate in Edinburgh, UK. But it is far more than a mere office for paper-shuffling diplomats. It amounts to a de facto US embassy to the Palestinians on Israeli territory. Its true purpose is to undermine Israeli sovereignty in its own capital city and will jeopardize future prospects for peace between Israel and Palestinian Arabs. (prophecynewswatch.com 10/29)
