But when ye shall hear of wars and commotions, be not terrified: for these things must first come to pass; but the end is not by and by. Then said he unto them, Nation shall rise against nation, and kingdom against kingdom: And great earthquakes shall be in divers places, and famines, and pestilences; and fearful sights and great signs shall there be from heaven. (Luke 21:9-11)

Why Climate Change Agenda is an Attack on God's Creation.

In the early 1970s, there were apocalyptic predictions of a looming ice age, a period of extreme cold caused by man-made pollution that could threaten the very existence of humanity. By the early 1980s global temperatures began to rise and the messaging quickly shifted to global warming which was going to melt the Arctic ice caps and cause sea levels to rise and flood the world's coastal cities. To solve this messaging dilemma, the shift was made to climate change to cover every weather trend hot, cold, wet, or dry. The problem with today's environmental movement is it blames man for climate change, and their apocalyptic ideology is rooted in fear. As a result of falsely blaming man for climate change, depopulation has become a major tenant of this movement. A 2019 letter signed by 11,000 scientists from 153 countries calls for a "gradual reduction" in the Earth's population to fight climate change. If we buy into the lie that man is to blame for climate change then all options are on the table. Most people would agree that we should steward God's creation well. The problem arises when people use environmental stewardship as a pretext to control the masses. (afa.net/thestand 8/24)

Is God Punishing the United States?

Why Are So Many Bad Things Happening to America in 2022?

Why are we getting hit by one thing after another? In the past it seemed like America was endlessly blessed, but now everything around us seems the opposite of blessed.

Our economy is imploding, inflation is out of control, the housing market is starting to crash, our streets are filled with violence and death, our weather patterns have gone completely nuts, the western half of the nation is enduring the worst drought in 1,200 years, with devastating impact on agricultural production, we are dealing with pandemics, we are losing our proxy war with Russia in Ukraine and it looks like war with China is just around the corner, and on top of everything else our political system is failing because liberals and conservatives deeply hate one another (Matt. 24:10). There is a very intriguing article in the Jerusalem Post entitled "Is God punishing the United States of America?", authored by a prominent businessman named Sherwin Pomerantz, connecting all of the bad things that are constantly happening to us. In his article, one of his points is that America's political system

is coming apart at the seams right in front of our eyes. Politically, whether people want to admit it or not, the country is in the midst of a civil war, though for the moment, neither side has taken up arms, one against the other. Pomerantz believes that it is no coincidence that our weather patterns have gone totally haywire and that our nation is being constantly hit by natural disasters. On average, the US experiences fewer than 1,500 tornadoes a year. Through June, there have already been 940 reported tornadoes, which means the country is on track to see 2,000 or more, a 33% increase year-on-year. In the west, a long period of drought has dried up reservoirs and is spawning massive forest fires. National Interagency Fire Center statistics show that as of July 5, 34,478 fires have already burned 4,582,301 acres. This is above the 10-year average of 27,346 fires, and twice the average of 2,026,917 acres burned. The odd thing is that very little of this occurs just north of the US in Canada, or just south in Mexico. It all seems to be centered in the US. No matter how dark and devilish things may get, there is always something good coming for the believer. Perilous times are followed by the Glorious Appearing, which is followed by the Great Tribulation. Immediately the terror and devastation in this world will climax during the Tribulation. Public Pennsylvania High School to Host 'After School Satan Club'. Northern High School in Dillsburg, Pennsylvania, is expected to offer a back-to-school event on behalf of the local Satanic Temple. The name of the event — After School Satan Club — makes its intent clear, and plenty of parents are outraged that it was approved to be held on a public school campus. The Satanic Temple has been recognized by the IRS as a church with tax-exempt status. It also claims itself as a religious authority on social and cultural debates, most recently concerning abortion.
